

Taft Explains Article X Plan.

Tells How His Reservation, Rejected by Lodge, Removed America's Legal Obligations to go to War, Leaving Matter to the National Conscience.

BY WILLIAM HOWARD TAFT.

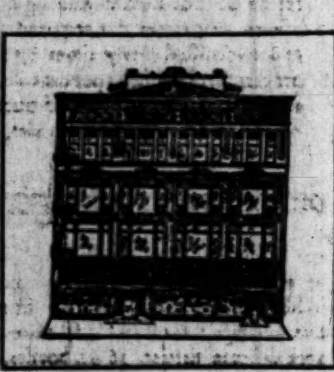

Article X of the League of Nations covenant, which has brought the collapse of the bipartisan negotiations for a treaty compromise, has been said to be the heart of the League, and in a proper sense it is so, in that it recognizes and imposes the obligation on all nations to respect it that no strong nation shall rob a weaker one of its territory or independence. But its importance to the League is not in its effect on the League, but in its effect on the League's operations to prevent war.

Under Article X, the League of Nations is made for the purpose of the peaceful settlement of all threatening disputes between nations by safeguarding action of the League.

operative only after the purpose of the war has been clearly disclosed. A war only for punitive purposes without taking territory or over-throwing a government would violate Article X. I have seen this exemplified in the application of the Monroe Doctrine. The Monroe Doctrine, in its main purpose, is Article X applied to the aggression of non-American nations against countries of the Western Hemisphere. When Spain attacked Chile during Mr. Seward's incumbency as Secretary of State, and Chile called on the United States to defend her, Mr. Seward replied that our policy did not look to our defending an American state against any punitive war by a non-American power, but only against one intended to take territory or to destroy independence.

Mr. Roosevelt laid down the same limitation of the doctrine in the Venezuela case as to wars begun merely to collect financial obligations when they did not seek appropriation of territory or deprivation of independence.

POWER IS LIMITED. The intervention of the League under Article X therefore, is to be invoked only in cases where the victor in a war "legal" under Article X, XVI and XVII, would apply to the aggression.

LOYALTY

LOYALTY is a great word and it has a great meaning. If you are told that a man is loyal then you know one of his strongest points.

Our thought today, in taking LOYALTY as the theme of our advertisement, is to express our appreciation of the loyalty of our force and associates.

When an organization such as ours has builded for sixty years on the plan of loyalty and good service, it means much. Our force is loyal to that plan and we feel safe in entrusting our interests to their care.

Try them and you will realize the strength of this statement. In the early part of this new year we take the opportunity to express our thanks to our loyal patrons, many of whom we have served for more than a quarter of a century—prominent men of today we served as boys. Now we are serving their boys. We take pride in their many expressions of kindness to us in which they show their loyalty to this institution.

And we in turn will continue to prove our loyalty, ever maintaining steadfast our principle of good service.

EX-CROWN PRINCE WANTS TO GO HOME.

(BY CABLE AND ASSOCIATED PRESS.)

AMSTERDAM, Jan. 31.—

Former Crown Prince Frederick William hopes, as soon as circumstances permit, to go to his estate at Oels, near the Polish frontier, to live with his wife and family, according to the correspondent of the Telegraf, who interviewed him yesterday.

The former Crown Prince said he was writing his war memoirs, but could not think of publishing them now. He has learned to speak much Dutch and wears wooden shoes on his morning rambles, says the correspondent, and amuses himself by boxing with an instructor from Amsterdam.

X will have been anticipated under the other articles, Article X, therefore, really enlarges the obligations of League members which has been generally assumed. For this reason whole-hearted friends of the covenant may properly feel that even though the obligation of the United States under Article X is nullified by the reservation, much that is valuable in the League remains.

President Wilson, in discussing the effect of Article X with the Foreign Relations Committee at the White House, expressed the view that all he had in mind by Article X was to create a moral and not a legal obligation. On the other hand, the majority of the Senate conscientiously object to the legal and binding obligation of Article X, lest it may involve us in wars which we ought not to enter. There should be a common ground upon which these differing sentiments can stand. A moral obligation is one to which a person responds when his conscience tells him to act. That is the only sanction upon which the beneficiaries of a moral obligation have a right to rely.

AMERICA'S CONSCIENCE.

The conscience of the United States is the united conscience of the American people, but the only practical authority for interpreting it is the representative body created by our fundamental law, and that is the Congress. Why, therefore, could not both sides agree on a binding obligation of the United States under Article X, and leave to Congress, the only practical authority and interpreter of the conscience of the nation, to decide whether or not it is a moral obligation which it is to accept?

Article 10. The members of the League undertake to respect and preserve against aggression the territorial integrity and existing political independence of all members of the League. In case of any such aggression or in case of any threat or danger of such aggression, the members of the League shall take such action as they may deem necessary to maintain the territorial integrity and existing political independence of any such member.

LODGE RESERVATION.

The Lodge reservation is as follows:

"The United States assumes no obligation to preserve the territorial integrity of political independence of any other country or to interfere in controversies between nations—whether members of the League or not—under any article of the treaty for any purpose, unless in any particular case the Congress, which under the Constitution has the sole power to declare war or authorize the employment of the military or naval force of the United States, shall by act or joint resolution so provide."

The suggested substitute reservation, which Lodge rejected, would read as follows: "The United States declines to assume any legal or binding obligation to preserve the territorial integrity or political independence of any other country under the provisions of Article X, or to employ the military or naval force of the United States under any article of the Treaty for any purpose; but the Congress, which under the Constitution has the sole power to declare war or authorize the employment of the military or naval force of the United States, shall by act or joint resolution so provide."

ANALYSIS OF RESERVATION. The first part of the reservation is in the form of the reservation as adopted by the majority of the Senate, except that it leaves out the words "or to interfere in controversies between nations whether members of the League or not under the provisions of Article X." The words have no significance whatever, in view of the general words that precede and the limitation of them to Article X. They are obviously left in by mistake because the original reservation sought to extend the denial of all obligation under Article XVI and Article XVII to which they had application. They have none now. The second objection ought to be made by anyone to their retention.

By the changed form of reservation, all legal obligation of the United States to do anything under Article X to preserve the integrity, territorial or governmental, of another country, is eliminated, as in the present reservation, and the only thing that remains is the possible existence of a moral obligation which is given life only by the decision of Congress under the particular circumstances of each case as it arises. Congress must itself recognize the obligation before it becomes one. It may be said that Congress has that right, anyhow. These words are one to state the position that Congress will in good faith take up the question in any particular case and consider whether there is any moral obligation, in view of the circumstances of the particular case, for the United States to intervene. This is the principle of the Lodge reservation. Certainly no Senator who favors the League with stiff reservations can object to the United States giving such an assurance. While, on the other hand, it is not seen how a moral and not a legal obligation of the United States, as emphasized by the President, can be recognized and dealt with in any other way.

American Bride of Former King's Brother

Mrs. William B. Leeds, Wife of Prince Christopher. By the civil ceremony at Geneva, Mrs. Leeds becomes a cousin, by marriage, of King George of England, and an aunt, by marriage of King Alexander of Greece. Her husband is the brother of the deceased King Constantine. She was the widow of the "tinplate king," who left her a fortune estimated at \$14,000,000.

WIDOW OF TINPLATE KING WEDS A PRINCE.

MRS. WILLIAM B. LEEDS IS BRIDE OF PRINCE CHRISTOPHER, AT GENEVA.

(BY CABLE AND ASSOCIATED PRESS.) GENEVA, Jan. 31.—Prince Christopher of Greece and Mrs. William B. Leeds were married at 11 a.m. today in the ancient town hall here. The ceremony was a civil one, to be followed by a religious ceremony at noon, near Montreux, tomorrow, according to the rites of the Greek church.

The witness for the bride was A. W. S. Picard, a New Orleans attorney. Capt. Stocker, aide-de-camp to the Prince, acted in the same capacity for the groom. American Consul Dick and the Associated Press correspondent were the only onlookers. Among the guests of the church wedding were Prince and Princess of Greece, the former Greek Crown Prince, representing ex-King Constantine. Mrs. Leeds accompanied only by Dowager Queen Olga of Greece. Queen Sophia of Greece were not invited to the wedding.

HONEYMOON PLANS.

NEW YORK, Jan. 31.—Prince Christopher and his bride are to spend their honeymoon in St. Moritz. It is the first marriage in recent years of an American woman and a son and brother of a king. The bride becomes a cousin, by marriage, of King George of England and Queen Victoria of Spain, and an aunt, by marriage, of King Alexander of Greece. Prince Christopher is a son of the late King George of Greece. Mrs. Leeds is a daughter of the late William C. Stewart of Cleveland. She was Mrs. Nancy Stewart Worthington when she married Mr. Leeds, the "tinplate king," who died in 1908, leaving her a fortune estimated at \$14,000,000. The Leeds home was at Fifth avenue and Eighty-ninth street.

Jutant at Fort Brown. It said all matters were satisfactory and that the return of the two men was imminent and indicated Zuzana knew nothing of the orders of Murguia. Flores, in a message earlier in the day, was optimistic the return would be soon, although he said final instructions were awaited from Gen. Murguia. This was the first intimation that the matter had gone to Murguia at all.

U. S. Consul Willson of Matamoros, who had been dealing with Mexican officials regarding Davis and Grimes, dropped the matter today when he received word that Vice-Consul Robertson at Nuevo Laredo had taken it up. No direct word has been received from the consulate since their first message late Wednesday containing news of their landing south of Cuernavaca, where oil and gasoline were exhausted, according to Capt. Bradford.

HUBERT KITTLE RESIGNS POST.

Attacked Policeman Quits; To
Return to Railroad.

Says He Does so in Order not
to Embarrass Chief.

Home to Return Tomorrow;
Will Fight to Finish.

Hubert M. Kittle, for some months
past attached to the Chief's office as
a special investigator, yesterday ten-

dered his resignation from the po-
lice department. It was contained
in a letter addressed to Chief of
Police Home, now out of the city,
and was left in the Chief's office ear-
lier in the day, according to the an-
nouncement made last night by E.
M. Dougherty, secretary to the Chief.
Pending Chief Home's arrival in Los
Angeles, probably some time tomor-
row morning, no action can be taken
in the matter, and Mr. Kittle's statu-
s will remain unchanged, it was ex-
plained.

Kittle's resignation followed a
published attack upon him in the
same newspaper that earlier in the
day announced that Chief Home
will resign and mentioned the name
of his supposed successor. This re-
port was categorically denied by
Chief Home in two long-distance
telephone messages to Ivan St.
Johns and Mr. Dougherty, respec-

tively, secretaries to the Mayor and
the Chief.

In his conversation with Mr. St.
Johns, Chief Home said he will be
in his office Monday morning and
will answer, personally and com-
pletely, every accusation directed at
him while he was away. He asked
for an appointment with Mayor
Snyder as soon as possible, and in-
dicated that he planned to strike
back at his accusers and explain
every act of his administration. In
the subsequent conversation with
Secretary Dougherty, Chief Home
reiterated his stand and told Mr.
Dougherty he will not resign as long
as the charges are undisposed of.

The text of Kittle's resignation
follows:

"JANUARY 31, 1920.
"George K. Home, Chief of Police.
"Sir: I respectfully wish to ten-
der you my resignation as special
investigator attached to the Chief's
office, to take effect immediately.
"My reason for so doing is that
I desire to return to the Southern
Pacific Company in the capacity of
locomotive fireman.
"Respectfully,
"HUBERT M. KITTLE."

Later in the evening Mr. Kittle
issued the following statement:

"It would ill become me to make
a statement in the absence of Chief
Home.
"For reasons sufficient to myself
and to save him adverse comment
and embarrassment, I resigned to
go into more remunerative em-
ployment.
"This city will never get good
service in its police department un-

til a man who wants to do right
and knows how to do the best work
is immune from political attacks.
None of us desire to be made targets
when we are trying to do and are
doing our best.
"I don't have to be abused to
make a living. If I can separate the
city well, I'm willing. If I cannot
be allowed to do my best work, I
don't want to work at all. So be it."

ON REINSTATED MEN.
City Attorney Burnell still has in
hand the matter of giving to the
Civil Service Commission an opinion
as to how far its powers and the
powers of the Police Commission
extend in regard to restoration to
active service in the police depart-
ment of men who have been re-

instated from any position making
for any opinion other than that
when a member of the department
is removed for cause and then seeks
to again become an employee of the
department, he must take an ex-
amination before the Civil Service
Commission, the same as that re-
quired from anyone making an
original application for the position.
His formal opinion, however, may
not be given to the commission for
several days, so that a thorough
study may be made of the subject
in consultation.

Should the gist of this ruling be
as above indicated, then the men
who were restored to the police de-
partment after having been dropped
for cause would still be out of the
city's service, as it is probable the
attempt would be made to secure
from them the return of some money
as they may have drawn for sal-
aries.

WEALTHY PUBLISHER
ARRIVES WITH BRIDE.

GEORGE W. WILDER TO SPEND
HONEYMOON ON FARM
NEAR REDLANDS.

George W. Wilder, millionaire
publisher and stock fancier of
Southern California and New York,
and president of the Butterick Pub-
lishing Company, arrived in San
Bernardino yesterday for a honey-
moon with his bride of three weeks.

Mr. and Mrs. Wilder were mar-
ried in New York January 10. While
in California they will live at Hol-
low Hill farm, between San Bernar-
dino and Redlands, the New York
publisher's famous scientific
farm and model dairy, where he is
said to have some of the finest herds
and pedigree stock in the West.

The new Mrs. Wilder was formerly
Mrs. Abby Lane, after Robert
Landon, at one time a nurse at the
Palm Springs Sanatorium, where
she became acquainted with Mr.
Wilder. According to the present
plan, the couple will remain at
Hollow Hill farm for a month or
two and then return to New York.

Mrs. Gertrude C. Wilder filed a
suit for divorce August 27, 1913,
and was granted the decree in San
Bernardino about two months later.
The divorce was obtained on the
grounds of desertion. No division
of the property figured in the case.
As a settlement it was said to have
been made by Mr. Wilder before ac-
tion was started. Mrs. Wilder was
given the custody of the children. She
now lives at the palatial Wilder
home on Sunset drive, Redlands.

The New York publisher has lived
in Southern California during the
last ten winters, and is well known
here for his interest in the high-
bred stock and his model farm.

EDUCATORS CONFER.

Part-time Compulsory Classes are
Subject of Discussion.

A three-day conference of educa-
tors interested in the part-time
classes for the public schools of Los
Angeles and other Southern Cali-
fornia cities, came to a close yester-
day. Tomorrow a similar confer-
ence will be opened at 451 South
Hill street, with representatives from
San Diego, Pasadena, Long
Beach, San Bernardino, Pomona,
El Centro, Riverside, Santa Ana,
Santa Barbara and Los Angeles in
attendance.

The conferences are being con-
ducted by J. B. Lillard, State super-
visor of agricultural instruction, and
George W. Galbreath, supervisor of
classes for trade and industrial
teacher training at the southern
branch of the University of Califor-
nia.

These part-time classes are in-
tended for those children who,
though above the age of compulsory
full education, are still in need of
instruction and are employed part
of the time. This part-time educa-
tion is obligatory for certain classes
of children, under a law recently
passed by the State Legislature.

BURGLAR, CAUGHT IN ACT, FATALLY SHOT.

LEAPS THREE STORIES IN EF-
FORT TO ESCAPE; CONFESS-
ES ON DEATHBED.

A burglar was fatally shot by Pa-
trolman B. C. Croft last night when
he leaped from the third-story win-
dow of the Ben Hur Apartments,
337 South Fremont street, in a wild
dash for freedom after his partner
in the burglary had been taken into
custody by Patrolmen Croft and J.
W. McMillan. The wounded youth,
R. O. Cuthbertson, 22 years of age,
on his death-bed confessed that he
was robbing the apartment of Mrs.
J. E. Wetherell and Miss Marie Speri-
dan, No. 310, when he was caught
in the act by the officers. The other
bandit, Louis Schank, a 17-year-old
jeweler, admitted that he was wait-
ing on the ground below the window
of apartment No. 310 to catch the
loot as it was thrown out by his
partner. He was held in the City
Jail.

Patrolmen Croft and McMillan
were summoned to the apartmen-
house by Mrs. E. E. Uiter, the land-
lady. Jumping out of their automo-
biles, they found Schank beneath the
window, holding a mantle clock
which his partner had just tossed
to him. Croft covered him with his
gun while McMillan disarmed him
of a .38-caliber revolver.

Cuthbertson, who was looting the
apartment, heard the commotion be-
low and decided to risk all in a mad
flight for safety. Leaping to the
ground, which sloped up to the sec-
ond-story level at the window, he
sped across the back yard. Croft
ordered him to halt and then fired.
Cuthbertson fell to the ground. The
wounded burglar was rushed to the
Receiving Hospital, where it was
found that the bullet had gone
through his abdomen, causing fatal
injuries.

In the apartment, a bag was found
which Cuthbertson had packed with
ladies' silk underwear and silver
belongings.

From the police identification
bureau it was learned that the re-
volver carried by Schank had been
stolen in a burglary in Oakland sev-
eral months ago.

The two ladies who live in the
burglarized apartment were away on
a visit at the time. All of their
property was recovered.

NOT GOING NORTH YET.
Through an inadvertence it was
learned yesterday of the big-gun firing
in the channel of the New Mexico,
off the coast of Pacific Fleet, would
go north to be dry-docked yester-
day. The trip will not be made un-
til March 22.

A POWERFUL MICROSCOPE

Will Show the Real Cause of Your

HAIR AND SCALP

TROUBLES

Prof. John H. Austin, Bacteriologist, Hair
and Scalp Specialist of Chicago, says that
"Dandruff" is often mistaken for more trouble-
some scalp conditions.

In over forty years' experience Prof. Austin has found that only the most powerful
microscope can determine the exact trouble with which the hair or scalp is afflicted.

People who really value their hair have come
to consider a hair specialist of as much im-
portance as a doctor or dentist—for how can any-
one without the knowledge and experience dis-
tinguish between seborrhea oleosa, seborrhea
sicca, alopecia pityrodes and the many other
scalp troubles?

Prof. Austin says that the use of mange cures,
dandruff cures, hair tonics, vasoline and elixirs
is like taking medicine without knowing what
you are trying to cure.

Men and women troubled with scalp ailments
should see Prof. Austin, let him turn a powerful
microscope upon their hair and show them these
parasites that destroy the hair cells and the
roots, and they will be convinced that the par-
ticular trouble of each and every scalp must
first be known before it can be intelligently
treated.

The right remedy at the right time is certain
cure. Guesswork is of no practical value con-
cerning hair troubles.

Free Microscopic Examination of the Hair and Scalp.

Both men and women are invited to take advantage of this Free Microscopic Examination of
the hair and scalp. Hours 10 to 12 a.m. and 2 to 4 p.m. daily.

"American Enterprise Blessing to Republic's People."

Missionary Says Capitalists Prevent Famine.

Charges Against Jenkins are "Utterly Ridiculous."

(EXCLUSIVE DISPATCH.)
WASHINGTON, Jan. 31.—Charges that William O. Jenkins, U. S. Consular Agent at Puebla, was implicated in his own abduction by rebels last fall are "utterly ridiculous," Rev. James M. Taylor, secretary of the board of foreign missions of the Methodist Episcopal Church, testified before the subcommittee of the Senate Foreign Relations Committee investigating the Mexican situation.

Dr. Taylor was examined by Francis J. Keatney, counsel for the Fall committee. The witness told of conditions in Mexico as he found them during a trip of investigation of the opportunities for missionary and educational work there.

"Foreign enterprise in Mexico, particularly American enterprise, has been decided a blessing to the Mexican people," said Dr. Taylor. "I went there believing that foreign investors were exploiters of the people, but I was convinced that I was wrong. Some of those companies operating in Mexico are really missionaries because of their sanitary work, their educational work and their raising of the standards of the people. If all of the foreign capital was withdrawn from Mexico, in ninety days or at most in six months there would be one of the greatest famines ever known in any country of 15,000,000 people."

GOT \$200 FROM HIM.
Dr. Taylor said, "I was preparing to cross the Panuco River and was taking pictures of some oil company buildings. Some soldiers had made their temporary camp about the building and were sleeping under grass-thatched huts on the ground. One fellow, bare-chested, ragged and so drunk he could barely walk, rushed up to me and, pressing his gun against my breast, told me to give him the film out of my camera. I did. A dozen or fifteen of the soldiers surrounded me. They told me I must give up my camera and go with them to their general. They took a few words with me the general withdrew."

The sent word by one of his men that he must have \$500 in gold to release me. He did not mention his business, his philanthropy and I was not taken before a judge or given any kind of a trial. A photographer, who accompanied me, presented a Federal license to take pictures, but the general said this was not good in his district. After some negotiations the \$500 was reduced to \$200, which was paid. I was then allowed to go.

Dr. Taylor said that he spent some time with Consular Agent Jenkins at Puebla. He said that he was at the home of the Consul three days before the latter was kidnapped by bandits.

"Do you think Mr. Jenkins was an exploiter?" asked Judge Keatney.

JENKINS WELL LIKED.
"I think he was a blessing to the Mexican people. They regarded him very highly," said the witness. "I would like to say of my own accord concerning the question of his being implicated in his own abduction, that for anyone to know Mr. Jenkins, to know the extent of his business, his philanthropy and his deep interest in the welfare of the Mexican people, makes such a charge utterly ridiculous."

Dr. Taylor said that he was convinced that Carranza authorities could have rescued Mr. Jenkins and apprehended his abductors at any time. He said the rebels kept their captive within ten miles of Puebla, and that letters were constantly exchanged between Mr. Jenkins and his wife.

The witness testified that he was told by a Mexican railroad conductor working near Puebla that the Carranza generals did not want to suppress the rebels because the continued depredations gave them an excuse for drawing salaries for 2000 or 2500 soldiers while they maintained their headquarters in the mountains.

FOUR TRAINS DYNAMITED.
Dr. Taylor described conditions on the railroad by which he traveled from the border to Mexico City. He said he saw four trains derailed in twenty-four hours. His informant, he said, explained that President Carranza was traveling in the neighborhood and that the bandits had threatened to "get" him. In one wreck which he saw, Dr. Taylor said forty dead were taken from the debris.

Judge Keatney also examined Francis M. Blackford, of Columbus, a civil and mining engineer. Mr. Blackford said that he had been forced to abandon his interests in

ISSUE 6545 REALTY LICENSES IN MONTH.

BEGINNING MONDAY, AGT WILL BE ENFORCED RIGIDLY, DECLARES COMMISSIONER.

(BY A. P. NIGHT WIRE.)

SACRAMENTO, Jan. 31.—R. L. Riley, State real estate commissioner, announced today that 6545 realty licenses have been issued by his department since its organization a month ago.

Beginning Monday, Riley said, the provisions of the Real Estate License Act will be rigidly enforced, and all salesmen and brokers who attempt to do business without a license will lay themselves liable to prosecution. Licenses were issued as follows:

Realty brokers, 2825; realty salesmen, 2094; real estate licensees, 33; branch brokers, 38; co-partnership licenses, 626; member of co-partnership, 661; corporations, 127; officers of corporations, 119.

AMBASSADORS' LIQUOR PILFERED IN TRANSIT.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Jan. 31.—Ambassadors and ministers of foreign powers whose homes are now the desert created by the Eighteenth Amendment, are suffering under the disadvantages peculiar to the innocent bystander and are rising to protest.

Protected by diplomatic immunity from the reform wave, the embassies and legations continue to enjoy and to dispense the stores of liquor refreshment already on hand, and to import others. But the question of importation is assuming serious difficulties. No shipment arrives intact, the thefts extending all the way from one bottle to entire consignments.

Counting it only in dollars and cents, how much did that last cold cost you? It takes ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself; in fact, a bottle of this remedy is a mighty good investment during the winter and spring months. "St. Jacobs Liniment" conquers pain. It instantly takes away any ache, soreness and stiffness in the head, neck, shoulders, back, legs, arms, fingers or any part of the body—nothing like it. You simply pour a little in your hand and rub "where it hurts," and relief comes instantly. Don't stay crippled! Get a small trial bottle now from any drug store. It never disappoints—six gold medal awards.—[Advertisement]

DELINQUENT WOMEN'S BOARD IS ORGANIZED.

(EXCLUSIVE DISPATCH.)

SACRAMENTO, Jan. 31.—Members of the board of trustees of the State House for Delinquent Women, recently named by Gov. Stephens in compliance with an act passed by the last Legislature, held their first meeting here yesterday.

Dr. Emma K. Willets of San Francisco was elected president of the board and Mrs. Ida M. Hume of Berkeley, secretary. The other members of the board are Mrs. Maude Sibley of Los Angeles, Robert C. Burton of Los Angeles and Duncan Matheson of San Francisco.

Following the organization meeting the members conferred with the State Board of Control relative to securing a site for the proposed institution. The act calling for establishment of the home appropriated \$150,000 and provides that the trustees shall choose the site. Dr. Willets said the site will be selected with all possible haste so work on the home can be started at an early date.

PHOTOGRAPHY COURSE TO BEGIN THIS WEEK.

University extension courses in photography for both beginners and advanced students will be started Friday at 4 p.m. and Saturday at 9:15 a.m., respectively, in the Polytechnic High School, and in the Fine Arts Building of the Southern Branch of the University of California. Making of landscapes and portraits, printing, enlarging, making positives, the sun dichromate process and retouching will be taught.

Eat and Get Thin

This is turning an old phrase face about, but modern methods of reducing fat have made this revision possible. If you are overfat and also averse to physical exertion, if you are likewise fond of the table and still want to reduce your excess flesh several pounds, do this: Go to your druggist (or write the Marmola Co., 454 Woodward Ave., Detroit, Mich.) and give him (or send them) one dollar. For this modest amount of money the druggist will put you in the way of satisfying your ambition for a nice, trim, slim figure. He will hand you a large case of Marmola Prescription Tablets, (compounded in accordance with the famous Marmola Prescription), one of which you must take after each meal and at bedtime until you begin to lose your fat at the rate of two, three or four pounds a week. Then continue the treatment until your weight is what you desire. Marmola Prescription Tablets are not only harmless, but really beneficial to the general health. You don't need starvation diet or sweating exercises. Just go on eating what you like, leave exercising to the athletes, but take little tablet faithfully and without a doubt that fleshy flesh will quickly take unto itself wings, leaving behind it your natural self, neatly clothed in firm flesh and trim muscles. SENATE'S WASTE OF PAPER AIRED

Smoot Tugs in Bushels of Printed Treaty Speeches.

Sherman Says Government is Worrying Newspapermen.

Nelson Would Eliminate the Sporting Sections.

(BY A. P. DAY WIRE.)

WASHINGTON, Jan. 31.—The waste of white paper by government departments came in for another attack today in the Senate. Senator Smoot, Republican, Utah, opened the discussion and to prove that the Senate's skirts were not quite clean, he tugged into the chamber a volume the size of a bushel basket with the explanation that it was a compilation of the speeches already made in the Senate on the peace treaty and printed in the Congressional Record.

The book, said Senator Smoot, contained more than 7,300,000 words. He added that he had started to compile also the separate articles relating to the treaty which had been inserted in the Record, but had given up because he found such a collection could not be brought together in "any reasonable number of books."

Senator Sherman, Republican, Illinois, said departmental mail had "become a pest even to country newspaper editors, the Knights of Scissors and Paste Pot," adding: "They get so much of it they are unable to open it without the aid of private secretaries."

Senator Nelson, Republican, Minnesota, remarked that the newspapers had no right to complain of the white paper shortage when they devoted two to three pages daily to publication of sporting news.

"The newspapers ought to eliminate their sporting news and I am sure we all could get along better," he said.

Repeal of all tariff duties on prin-

ting paper, wood pulp and rag pulp was proposed by a bill introduced today by Representative Connally, Democrat, Texas, and referred to the House Ways and Means Committee.

MASON TO BUILD.

(LOCAL CORRESPONDENCE.)
VIRALLA, Jan. 31.—Members of the Masonic fraternity have purchased from Marshall Harrell, An-

dre J. Harrell, Victoria H. Trask and Elmer H. Black four blocks of property on Locust and Acequia streets, the consideration being given at \$20,000.

The property has been purchased as a site for a new lodge home, which will contain spacious club features. The type of building and other details of the construction are to be decided upon later.

HONOR LAST WISH OF DYING SOLDIER.

(EXECUTIVE DISPATCH.)

LONG BEACH, Jan. 31.—In the first case of its kind on record, so far as can be learned, the late Earl Her- rick Webb, 29 years old, son of Mrs.

C. N. Webb of 311 Atlantic avenue, who died Tuesday of this week at his home, will Tuesday next week be made a member of the local post of the American Legion. Young Webb, a returned soldier, came to Long Beach four months ago from Minnesota with his wife and two children.

On his deathbed the former servant man expressed a desire to join the American Legion. His mother informed the local officials of the national organization and an application blank was supplied.

Taps interrupted the filling out of the form, however, it was then decided that the name of Earl Her- rick Webb should be inscribed on the record of the Long Beach post of the American Legion as a member of that organization, at the next meet- ing. Funeral services for the former

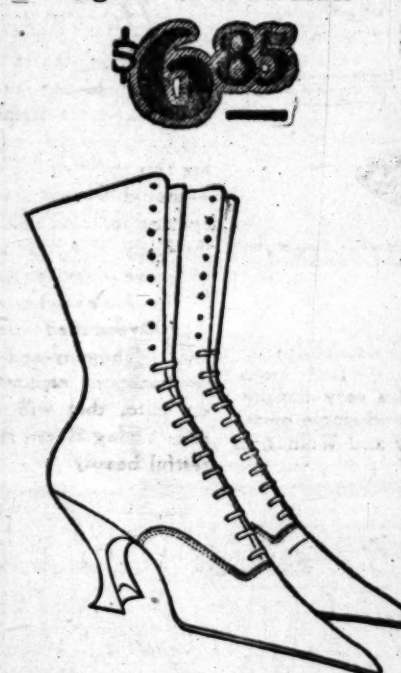

soldier were held at the Patterson & McQuiklin chapel this afternoon. The American Legion was officially represented.

Wisconsin Meeting. The Wisconsin Society will meet tomorrow night at Forum Hall to make arrangements for the Badger picnic scheduled for the 13th inst. There will be an entertainment and dancing.

ROME, Jan. 31.—After arriving in Rome, the first protest against occupation. Every day men who spoke D'Annunzio's occupation domination by permit their names to be published in the press.

Under a D'Annunzio crime punishable by imprisonment and 10,000 lire anything of a kind to the present.

One day, however, Francesco Saverio Nitti, Jugo-Slav Nationalist, was asked by the Italian labor union, Panella. But 18 years and haven't to live, anyway, and if I must go to prison, holding the cause of Mr. Brelich led the other Jugo-Slav leaders, most of them no bank, across the river.

"The sentiment of more than ever before, the Italian labor union, Panella. But 18 years and haven't to live, anyway, and if I must go to prison, holding the cause of Mr. Brelich led the other Jugo-Slav leaders, most of them no bank, across the river.

"Yes, I will," Brelich has been called by carrying about a picture of the Italian labor union, Panella. But 18 years and haven't to live, anyway, and if I must go to prison, holding the cause of Mr. Brelich led the other Jugo-Slav leaders, most of them no bank, across the river.

FIUME IS TIRED OF ITALIAN RULE

Jugo-Slavs Claim Plebiscite was Crookedly Conducted.

Women Camp Followers Permitted to Cast Ballots.

D'Annunzio Suppresses Free Speech and Press.

BY GEORGE SEIDLER.

(BY CABLE—EXCLUSIVE DISPATCH.)

FIUME, Jan. 30.—Five minutes after arriving in Fiume we heard the first protest against Italian occupation. Every day since have come protests upon protests. Every day men who spoke against either D'Annunzio's occupation or the future domination by Italy refused to permit their names to be used in articles to be published in America.

Under a D'Annunzio decree it is a crime punishable by ten years' imprisonment and 10,000 lire fine to say anything of a nature displeasing to the present rulers of Fiume.

One day, however, we talked to Fran Bralic, who is president of the Jugo-Slav National Council of Fiume. We asked if he would let his name be used.

"Yes, I will," Bralic replied. "I have been jailed by D'Annunzio for carrying about a booklet on the Fiume question, published in Rome by the Italian labor leader from this city, Panella. But I am a man of 18 years and haven't much longer to live, anyway, and I do not care if I must go to prison again for upholding the cause of Fiume."

Mr. Bralic led the way to several other Jugo-Slav leaders of Fiume. Most of them now reside in the city across the river.

"The sentiment of Fiume today," more than ever before, now that even the Italians have grown sick of the present system," the leader said, "is either for Jugo-Slav rule or for a free town. As a free town and a free port it would have a great future, because behind it is the new-born Jugo-Slav nation, rich in agriculture and natural resources, with a people who know how to work, who want to work and who are friendly with the whole world."

"For this new nation, for whose

FRENCH PAPERS ASSAIL AMERICA

Unjustly Blame Speculation for Franc Depreciation.

Level-Headed Financiers Say the Idea is All Wrong.

Hard Work and Economy Cure for Bad Conditions.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, Jan. 30.—That speculation is not responsible for the depreciation in the franc and pound sterling, is the consensus of opinion of British, American and French bankers obtained in a canvass of financial circles in Paris today by a correspondent of the Associated Press.

Hard work, economy, restrictions on imports, increased production and additional taxation are the remedies for the situation unanimously prescribed by financial men here.

British bankers say, however, that willingly or unwillingly, or merely by force of circumstance, America is responsible for depreciation of currency on the continent.

They say that the fall of the franc is a sympathetic and is a direct consequence of the depreciation of sterling.

NEED AMERICA'S HELP.
"We had forecast that the pound would go down to \$3.50 and perhaps \$3," said Evelyn Toulmin, director of the Lloyd's Bank Association, today.

"We were partially prepared for that emergency. But it would be a great advantage to us if America would ease up and help us along for a little while. Great Britain owes America \$100,000,000. We will pay that sooner, perhaps, than seems to be the general impression in America. France owes America \$500,000,000. What are the prospects for the settlement of that debt, I am not in a position, or at liberty, to state."

"The present situation will obtain as long as Europeans are not brought to the realization that Europe must supply its own needs. Then only will the exchange problem be settled. Of course, one cannot tell this fact bluntly to France in her present condition."

"The period to be bridged may extend for four and perhaps five years. It is during that time that we shall need America's assistance. Hard work and economy are the only remedies. There is no short cut."

American banking circles in Paris are somewhat concerned over recent attacks of the press against the United States, purporting to show that speculation in New York was responsible for the collapse of the franc.

Some financial writers are waging a campaign for local consumption along these lines, while the more prudent newspapers meet the situation squarely and describe it as originating in the unfortunate French economic situation.

Exchange brokers informed the correspondent that never before had there been such wide speculation on the Bourse, and expressed the opinion that the people were speculating so heavily because they felt that money was becoming more and more depreciated daily and desired to invest their bank notes.

HENDERSON BRIBERY TRIAL ON TOMORROW.

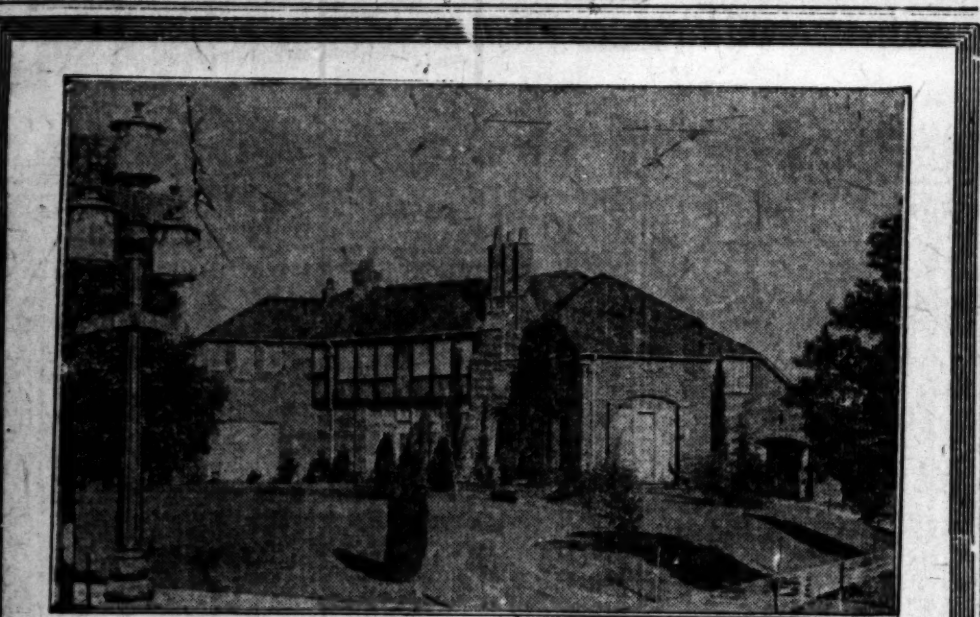

Argument in the Henderson case, on trial before a jury in Judge Houser's court, will begin tomorrow morning. It is expected that the jury will get the case late tomorrow afternoon or Tuesday morning.

George Henderson, the defendant, a colored politician, was once convicted and in the second trial the jury disagreed. This is the third trial. He is charged with giving a bribe.

NOT FOR SALE

This beautiful brick residence, recently erected in Windsor Square, is one of the most attractive homes in that fashionable section. It is exclusive in design, permanent in construction, and charming from every view. It will endure for generations—a monument of stability and refinement.

BECAUSE

Brick homes do not deteriorate. They are upkeepless, sanitary, fireproof and safe—maintaining an even temperature in all seasons. The owners are comfortable and satisfied.

It is conservatively estimated that over ten thousand frame houses in this city are being offered for sale. Back of this condition are two reasons. The tempting prices offered, and the owner's full realization of the cost of repairs to his rapidly depreciating, warping, cracking, decaying, inflammable structure. It is a good time to sell a bad thing if that is conceivable.

A Bed Room of Charming Appeal

There is no room in the home with such opportunities for radiating one's personality and individuality, as the Bed Room. With this in mind, we have carefully selected a very comprehensive array of attractive Bed Room suites and single pieces in the acceptable Periods in Ivory, Mahogany and Walnut, in the wanted finishes.

The Living Room—the Meeting Place of Comfort and Harmony

As the Living Room is the assembly place for the family and its friends it should fittingly express the true spirit of the home—should be restful to the eye and mind as well as to the body. We offer scores of the very newest models in the Periods, or in the Overstuffed designs and Mahogany-and-Cane combination, separate or en suite, that will make your Living Room one of restful beauty.

A Dining Room of Cordial Hospitality

The Dining Rooms of today are not merely rooms for the eating of meals—they have become a place of dignity and warm hospitality. We offer sets and pieces in the most approved Period designs in the most desirable woods and finishes that make a charming background for a quiet dinner "en famille" or a formal dinner party.

Wilton and Axminster Rugs In a Wealth of Beautiful Designs and Patterns

Many visitors have been agreeably surprised by, and have commented upon, the magnitude of our rug stock. Some have even gone so far as to say that it is the largest and most complete they'd seen in the city. Be that as it may, we invite comparison, both as to actual stock size and pattern-choice, with any in town. Even if you do not intend to buy, you can spend an interesting and profitable half-hour in our top-floor Rug and Drapery department. You are at all times welcome, and our staff of decorators is always willing to make helpful suggestions.

The Wiltons

Wilton Rugs have been unusually hard to procure, but we are fortunate enough to offer a complete line. We are showing a particularly pleasing array in the late staple Ispahan patterns, so popular just now, in colorings to suit any taste and 70 pattern choices, with sizes to match. Manager Essick Foresees Prosperous Season in League.

Also Looks for a Bang-up Battle All the Way.

Two-Bit Baseball is a Thing of the Past.

BY HARRY A. WILLIAMS.

It already has been related how Bill Essick foresees trouble for himself.

Now Bill foresees the best season, financially, in the history of the Coast League.

This is apparent that Mr. Essick is forecasting things, which require a more high-powered vision than merely seeing things. Anybody with fair sight can see things, but it takes a real seer to foresee. Only seers with strong eyes and astrophysics with telescopes can see things as far as currency accumulating in large sums on the distance horizon or detect blackheads forming on the fair countenance of the sun. Mr. Essick, however, doesn't claim to be in the latter class. In fact, he is inclined to disagree with the star seers, and admits the idea that the sun sometimes has blisters and develops a mottled complexion.

LOOKING AT SUN.

In other words, he doesn't think there is any such thing as a sun spot. He inclines to the theory that now and then an astronomer gets indigestion, and black specks cloud his front. When he looks at the sun, he is looking at the sun. The telescope causes these black specks to look like \$5,000,000 miles away, and they are hailed as a great discovery. It is decided that the sun is ailing again, and our faith is predicted. Whereupon, the highly nervous set up housekeeping in caves because they can't bear to look at the world coming to an end. They prefer not to notice it when it happens.

But Mr. Essick is not of that sort. He confidently believes that at least another pennant race will be finished before decomposition sets in on the sun.

Pending prosperity bounds his vision on all four sides.

NOT MUSCLE-BOUND.

It is true that the great national pastime came back strong last season, but not so strong that some of the clubs made money and it is not believed that the ledgers of any of them became loaded with red ink. Practically every club, Essick thinks, should make money this year.

That will, indeed, be a unique experience after the financial horrors of the past six or seven years. Time and again different clubs in the league have turned up at the end of a season with a deficit, and have been excluded into which a wagonload of gravel could be dumped without being noticed. It probably has been a decade since every team in the league has garnered green certificates in excess of their expenses. Here and there a team made a satisfactory financial splash.

Usually the winners have been confined to a couple of clubs. Almost invariably it has been a two-club race, with the victor sitting in and hoping to win back their ante.

This year it looks to be a bang-up battle all the way, with all the clubs fattening at the feed trough.

SEES PYRAMID.

During one of his forecasting moods the other day Mr. Essick discerned what appeared to be a large pyramid. Closer inspection proved it to be in reality a pyramid, but it was composed entirely of kopecks piled neatly on top of one another. It was approximately a mile square at the base. This wasn't a mirage. It couldn't have been. Mirages are always upside down, and a pyramid of kopecks would spill if placed upside down. Plainly it was the pyramidal shape of the Coast League is to attain in 1920.

Not all of the forecasts will be due to the increased prices. Much of it will result from increased attendance. Essick expects the gate receipts will be up 40 and 70 cents without getting black in the face.

PAID NO LEASE.

No one old-timer will be pained to learn that two-bit ball seems to be a thing of the past, not only here, but elsewhere. It has gone the way of the bare-fingered catcher and the old-fashioned drop cap. In its place we have 40 and 70-cent ball, and the spitter.

"Everything connected with the game except five balls will be higher this year," said Essick, who had just laid off thumping an honest-looking, upright player. "Overhead expenses have increased, paraphernalia costs more and salaries have necessarily advanced, as the athlete must eat and live. And we don't want any dead ones in this league. Railroad fares have almost doubled in the past few years, and there is said to be the possibility of another 25 per cent. increase.

BOUND TO COME.

"The advance in prices was bound to come—that is, if baseball was to continue. At the Chicago Cub park in New York they haven't a seat in the place which can be had for less than 50 cents. In a way, the Coast League clubs are at greater expense in proportion to population than the major leagues, because of the enormous jumps in this circuit. Transportation has become a big item. I think the fans will appreciate the situation. The owners have stuck to it through the lean years. They have seen those engaged in the plan, game, and grow rich about them, while many of them were lucky to break even. I don't think the average club owner expects to make a great profit, but he naturally would like to see the game on a sound financial footing.

"Looks like a banner year, both from the playing and paying standpoint," said Bill in conclusion, accompanying himself on the piano. And Prof. Bill wasn't playing "I'm Forever Blowing Bubbles" when he said it.

GOULD AND WEAR DOUBLES CHAMPS.

PHILADELPHIA, Jan. 31.—Jay Gould and J. W. Wear of the Philadelphia Racquet Club won the national amateur racquet doubles championship when they defeated Clarence C. Bell and Stanley Mortenson of New York, here today by scores of 15-11, 9-15, 15-10, 16-18, 6-15, 15-7.

BASEBALL NOTES.

Clarence Rowland, former Sox manager, declares that he has not signed for 1920, but has several things in mind. He is about to buy a residence in Chicago and make the city his home.

Wade Kilmer, manager of the Los Angeles team, says that he is looking at the sun. The telescope causes these black specks to look like \$5,000,000 miles away, and they are hailed as a great discovery. It is decided that the sun is ailing again, and our faith is predicted. Whereupon, the highly nervous set up housekeeping in caves because they can't bear to look at the world coming to an end. They prefer not to notice it when it happens.

ENGLAND MAY SEND TEAMS.

British Varsity Provisionally Enter Relay Race.

Big Athletic Carnival at Pitcher Cunningham is the Franklin Field April 30.

Event this Year Promises to be Greatest of All.

PHILADELPHIA, Jan. 31.—Provisional acceptance of the invitation to compete in the University of Pennsylvania relay carnival, at Franklin Field on April 30 and May 1, has been received by the management of the games, both from Cambridge and Oxford universities.

Both institutions, Pennsylvania authorities said tonight, appear eager to send men to the relay, but whether they will be able to do so depends upon their ability to collect teams which they consider of sufficient strength to compete.

Should the two British institutions be able to organize separate teams, it was said they may send a combined team which would compete both in individual and relay events.

The carnival this year, according to the management, promises to be one of the greatest in its history. Nearly fifty colleges and universities already have accepted invitations. Among them are Yale, Princeton, Pennsylvania State, Colgate, Holy Cross, University of Minnesota, University of Southern California, Leland Stanford, Michigan Agricultural College, Harvard, Cornell, Illinois, Wisconsin, Chicago and Missouri.

One addition to the programme this year, announced tonight, is an intercollegiate medley relay race, open to both high and preparatory schools. The distance will be 250 yards for the first runner, 440 for the second, 660 for the third and 880 for the last man.

NEW YORK, Jan. 31.—The first and only appearance of an English university athlete team in the relay, the nearest approach to a national intercollegiate track meet held annually in this country, was in 1914 when the Oxford University team won the four-mile relay in 15 minutes and 40 seconds.

After one of the most sensational finishes ever witnessed at Franklin Field, the Oxford team, finished the final mile just two inches ahead of the American team, led by Captain McCurdy of Pennsylvania.

The statement was made today by the secretary of the association, who expressed doubt, however, that the intercollegiate relay would be held in 1920, as the university to collect a team suitable for such a foreign invasion.

COL. CHINN, FAMOUS TURFMAN, IS DEAD.

LEXINGTON (Ky.) Jan. 31.—Col. Jack Chinn, 72, one of the most noted turfmen of twenty years ago in America, died in a hospital here today after a long illness from heart trouble, and complications. He was a member of the first Kentucky State racing commission.

OREGON AGGIES LOSE.

SEATTLE (Wash.) Jan. 31.—University of Washington won from Oregon Agricultural College at basketball, 22 to 20, in a game which closed the winning basket in the last minute of play.

LOCAL POST IN PROTEST.

Protest against the action of a Milwaukee post at which the members of the Los Angeles Post No. 8, Victory Post No. 14, Hollywood Post No. 45 and Harbor Post No. 65 entered strenuous protest against the action of the eastern post in admitting a man to honorary membership despite the constitution of the Legion, and, more particularly a man who has been accused of being a "slacker."

It is not the business of the organization, said Mr. Tuller, "to determine the 'slacker' status of Dempsey, but it is entirely within our province to see that the constitution of the Legion is not violated, as apparently has been done by a local chairman of the Inter-Post Council post in Milwaukee."

HENLEY REGATTA MAY 29.

NEW YORK, Jan. 31.—This year's American Henley regatta will be rowed at Philadelphia Saturday, May 29. The date was chosen at a meeting of the board of stewards of the American Rowing Association, which was held in the Harvard Club here today. Representatives of Yale, Harvard, Princeton, Pennsylvania, Cornell, Columbia and Annapolis attended the conference.

It is planned to have the race for the Henley cup as part of the regatta, if examinations can be so arranged that Columbia will be able to send a crew to compete. If this is not practicable the Henley cup will be competed for at some other time, and the Henley cup will be the first varsity race on the Henley programme.

McCREDDIE BUSY AFTER PLAYERS.

Must Pick Team from a Flock of Young Blood.

Pitcher Cunningham is the Latest Holdout.

PORTLAND (Or.) Jan. 31.—Judge W. W. McCredie, owner of the Portland baseball club, is a busy man these days, lining up his players to report at Ontario, Cal., for the spring training season. He has the nucleus of a good team in sight, and has a flock of ambitious youngsters on his list, but some of the men on whom he is depending most have so far failed to sign a contract.

The Beavers have been ordered to report at Ontario on March 10. Since settling in Portland this week and at the training camp nine days ago, McCredie has been receiving very favorable reports as to the facilities for his club there. H. Scott, who laid out the Ontario ball park, dropped into Portland this week and gave McCredie a glowing account of the diamond, which is larger than is usually found in a small town.

D. D. McDonald, editor of the Ontario Herald, has been keeping in touch with McCredie and has assured him that Ontario has the latest and best of everything to make the training season a success.

STOCKTON HIGH DEFEATS FRESNO.

STOCKTON, Jan. 31.—The Stockton High School basketball five won the championship of the northern section of the California Interscholastic Association by defeating Fresno High School here tonight by a score of 41 to 25.

The victory was due to the superior offensive tactics employed by the local team. Fresno led throughout most of the first half, but went completely to pieces during the last fifteen minutes of play.

PASADENA AFTER THE P. C. OLYMPIC TRYOUTS.

PASADENA, Jan. 31.—The Board of Trade of the neighboring city of Pasadena, is making a terrific bid for the Pacific Coast try-outs for the Olympic games. Track stars are to gather somewhere in the West for trials which will decide those to be national competitors. The final winners are to be sent to Antwerp some time in July for the international affair. And Pasadena is doing their best to get these trials for the Crown City.

As it stands now the only logical place to hold the big trials would be at Tournament Park, where the new stadium is under construction. The stadium is to be a masterpiece of modern architecture, and the surrounding territory, that all the necessary recreational would be forthcoming.

Here's the Secret of Facial Beauty

No Matter How Disfigured With Pimples, Blemishes, Blackheads or Muddiness the Use of Stuart's Calcium Waters Works Wonders.

You will be astonished to see the wonderful change that so often takes place in just a few days after using Stuart's Calcium Waters. Pimples, blotches, liver spots, mottled, muddy complexion and skin eruptions affect the skin because it is or was the great outlet of the body to rid itself of impurities. If you supply it with the proper materials it will convert these skin poisons into a harmless substance to pass off instead of forming ugly accumulations in the skin. These waters contain the best skin purifier known to science—Calcium Sulphide. Get a 50-cent box today of Stuart's Calcium Waters at any drug store.—(Advertisement.)

Just Yellow Mustard for Backache, Lumbago

Grandmother's old mussy mustard plaster or poultice generally brought relief all right, even in the severest case, but it burned and blistered like blazes. "Heat cases pain," reduces the inflammation and scatters congestion, but you'll find that while Begy's Mustard, made of true yellow mustard and other pain destroyers is just as hot as the old fashioned plaster, it is much quicker, cleaner and more effective and cannot blister.

It's a great external remedy—just rub it on wherever aches, pains, inflammation, congestion or swelling exist and in a very few minutes the relief you have longed for surely arrives because "Heat cases pain." 25 and 50 cents.

Charcoal is a remedy that the more you take of it the better it is. It is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after smoking, and after eating onions and other odorous vegetables. Charcoal effectively cleans and improves the complexion. It whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh. All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large pleasant tasting lozenges, the charcoal being mixed with honey. The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to cleanse the complexion and purify the breath mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but 25 cents a box at drug stores and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."—(Advertisement.)

CITY OFFICIALS IN WORDY DUEL.

Pasadena Commissioners Mix at Special Meeting.

Librarians to Meet at Crown City in Convention.

Hold Dancing Teacher for Violating Ordinance.

(LOCAL CORRESPONDENCE.)

PASADENA, Jan. 31.—In a session featured by a wordy duel between Chairman A. L. Hamilton and Commissioner W. H. Reeves, the City Commission at a special meeting today declined to concur in Reeves' recommendation that City Chemist Frank Marks be dismissed for criticizing him and referring to him as a "polecat."

Commissioner Reeves, after failing to oust Marks, sought to lower his salary from \$175 to \$174 per month, but the majority of the Commission overruled his effort. In order to frustrate any further efforts of the Commissioner to remove Marks, the Commission has taken his department from under Reeves' jurisdiction and has placed it under the Commission as a whole.

In the course of the debate so many motions and amended motions were made that it was necessary to refer to Roberts' Rules of Order to straighten out the tangle. The so-called "old three," composed of Commissioners A. L. Hamilton, John J. Hamilton and M. J. Salisbury, supported Marks in the fight while the opposition was

represented by Commissioners H. F. Newell and W. H. Reeves.

LIBRARIANS TO COME.

The annual convention of the sixth district of the California Library Association will be held in Pasadena next week, beginning on Saturday morning. Three hundred librarians and library workers from all over Southern California are expected to attend. The program will include an address of welcome by Chairman A. L. WINS HONOR MEDAL.

(LOCAL CORRESPONDENCE.)

LOS ANGELES HARBOR, Jan. 31.—Harry L. Neese, a second-class seaman on the U.S.S. Mississippi, was yesterday decorated with the Distinguished Service Cross by Capt. W. A. Moffet for valor on the battlefields of France.

Neese won an official citation and the cross for his actions during the battle of September 1, 1918, when he raised an enemy machine gun nest single handed, killing all three of the Germans operating a machine gun. He was under almost unbearable fire for thirty days and crawled across No Man's Land into the enemy lines.

Tells How To Open Clogged Nostrils and End Headache.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils and it will penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.—(Advertisement.)

(EXCLUSIVE DISPATCH.)

LONG BEACH, Jan. 31.—Mr. and Mrs. John Rands of Fruitland, Idaho, are wanted at home.

It is believed that the couple are stopping either in Long Beach or Los Angeles.

Mr. and Mrs. Rands left their home in Idaho a couple of weeks ago for a pleasure trip through Southern California.

They left their two sons, Frank and Orin, at home. Word was received here this afternoon that Frank had died and that Orin was critically ill.

The message was brief and did not explain the cause of illness. It was signed by F. M. Gardner of Fruitland, Idaho.

WINS HONOR MEDAL.

(LOCAL CORRESPONDENCE.)

LOS ANGELES HARBOR, Jan. 31.—Harry L. Neese, a second-class seaman on the U.S.S. Mississippi, was yesterday decorated with the Distinguished Service Cross by Capt. W. A. Moffet for valor on the battlefields of France.

Neese won an official citation and the cross for his actions during the battle of September 1, 1918, when he raised an enemy machine gun nest single handed, killing all three of the Germans operating a machine gun. He was under almost unbearable fire for thirty days and crawled across No Man's Land into the enemy lines.

OIL WORKER KILLED.

(EXCLUSIVE DISPATCH.)

FULLERTON, Jan. 31.—Fred G. Page, an employee of the General Petroleum Oil Company at Fullerton, was instantly killed today by an explosion of gas. He was working alone at the time and just how the accident occurred is not known. Page was 40 years of age, leaves a wife, three children, and several brothers. Inquest will be held tomorrow.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Headache.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils and it will penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.—(Advertisement.)

Capo-Di-Monte

A Medicinal Hair Tonic

Powerful, but Harmless—Or-
dinary Hair Tonics Not

Strong Enough

HERE is the nearest ap-
proach to perpetual youth

for the hair that has ever
been found—a medicinal tonic

—brings lasting beauty.

It freshens and invigorates the
scalp and stimulates hair growth.

It checks hair falling almost im-
mediately and will quickly re-
lieve the most chronic scalp dis-

ease.

Here's the secret of this wonderful
tonic success. It acts as medicine for

the scalp—stimulating and stimu-
lating the hair. Try it and see the

new life and vigor a few applica-
tions give. Two to three treatments

are sufficient to prove its marvelous ef-
fect. Ask for CAPO-DI-MONTE

HAIR TONIC. Two sizes at drugists,
50c and \$1.

Read these directions and use what a
short time is required for it to do these

really wonderful things. Apply once a day for
two or three days, or until trouble disap-

pears. It cures cases of hair falling, pro-
gressive baldness or loss of hair from any

cause, use regularly until the hair stops
falling and the new growth is well started.

It is especially a stimulant for the scalp
rubbing is unnecessary with this tonic.

Physician's Prescription to
Increase The Health and
Strength of Anemic, Run-

As a result of the tremen-
dous strain of modern living so

many people find that the nerve
cells have become depleted, the

whole system weakened and
thousands of men and women

are today losing their grip on
health simply because their

blood is thinning out and possibly starving
through lack of iron. It is

through iron in the red coloring matter of the
blood that life sustaining

oxygen enters the body and enables the blood to
change food into living

force, muscle and brain. If people would only keep their blood filled
with strengthening iron by taking Nuxated Iron

and run-down, they might readily build up their blood corpuscles and
quickly become stronger and healthier in every way. If you are not

strong or well you owe it to yourself to make the following test:

See how long you can work or how far you can walk without becoming tired.

Next take two five-grain tablets of ordinary Nuxated Iron three times per day after
meals for two weeks. Then test your strength again and see how much you

have gained. Nuxated Iron will increase the strength of weak, nervous, "run-down" and
worn-out men and women in many instances. The manufacturer guarantees suc-

cessful and satisfactory results to every purchaser, or they will refund your
money. Nuxated Iron is on sale at all good druggists.

Y.M.C.A. ASKS FOR FAIR PLAY.

Charges Propaganda to Halt
Drive for Funds.

Denies that Overseas Work
was a Failure.

Says Association is Needed in
Los Angeles.

To effect what is declared to be a
definite propaganda against the

campaign of the Los Angeles Y.M.
C.A. for \$750,000 for local exten-

sions, a positive denial of various
charges made against the organiza-

tion's overseas work was issued yester-
day by the Campaign Executive

Committee. "Statements have reached the
Campaign Executive Committee

concerning the overseas work of the
Y.M.C.A. which have wholly misrep-

resented one of the most effective pieces of
service that has ever been rendered

for soldiers and sailors," said the of-
ficial statement. "Because of prej-

udices toward the association on ac-
count of a few breakdowns on the

part of some of the hastily recruited
workers, there is current in Los An-

geles a definite plan to cripple the
Y.M.C.A. work among young men

and boys of this city.

"It is manifestly unfair to rob the
young men and boys of Los Angeles,

Hollywood and San Pedro of facili-
ties for social, recreational and reli-

gious advancement merely because
a branch of the Y.M.C.A. work over-

seas may have proved entirely
unsatisfactory to every enlisted man.

"It has been charged that the
Y.M.C.A. has done nothing for re-

turned enlisted men, which is alto-
gether false. The Los Angeles Y.M.

C.A. within the past eight months
has invested from its own funds

more than \$40,000 in service for
service men, to say nothing of thou-

sands that have been spent from the
United War Work Fund.

"In this city alone, more than
3000 enlisted men have been

memberships in the Y.M.C.A. at a cost to
the association of nearly \$12,000.

"The Y.M.C.A. has been giv-
ing educational service at half rates,

representing an investment of \$12,-
000 the part of the Y.M.C.A.

In addition, more than 1800 returned
men have secured jobs through the

employment department at absolute-
ly no cost to themselves.

"Many wild tales have been told
of so-called inefficiency in overseas

work, some of which may have been
true, but more have been pure

fabrication. The Y.M.C.A. in France
caused to be sent back 200 persons

as incompetents. The Y.M.C.A. in
Italy caused to be sent back 100

persons as incompetents. The Y.M.C.A.
in the Balkans caused to be sent

back 50 persons as incompetents. The
small percentage of failures is

rather a credit to the work of the
organization.

"Charges have been made of fail-
ure of the Y.M.C.A. to supply men

in the night with canteen supplies,
while millions of dollars were spent

to provide these supplies which
were delivered to thousands upon

thousands of men in the front lines
and in the back areas. Some areas,

of course, were not reached, just as
there were areas where both the

Knights of Columbus and Salvation
Army failed to reach.

"In the matter of canteen prices
and the charge of profiteering the

Real Art in Lighting Fixtures

Magnificent lighting fixtures of this character should be perpetuated through the families as heirlooms, the same as furniture. Nothing could be more appreciated by succeeding generations. The wonderful soft color blendings in the stippled brown finishes on wrought iron will harmonize with most any color scheme.

This living room candelabra, however Italian in general feeling, can be used in nearly any type of the new modern homes. The fixture in illustration and many other similar ones can be seen all made and finished in our showrooms. A designer of unusual talent can work out your ideas before you if desired.

See our charming reception hall lanterns in this same exclusive type of fixture, also side wall brackets in entirely new lines.

Wrought iron portable table and floor lamps are shown in unusual types and are complimentary to the fixtures shown.

Console lamps with velveteen shades are the correct lighting decoration for reception halls. These shown are the same style of finish and material as the beautiful candelabra shown above.

JOHNSON-WILSON COMBINE THAT SWEEP STATE IN 1916

Senator is Self-Convicted of Treachery to the Republicans of California; Can't Answer Indictment.

(EXCLUSIVE DISPATCH.)

SACRAMENTO, Jan. 31.—When Senator Johnson asserted after the close of the 1916 campaign: "My own contest ended with the primary of August 25. Notwithstanding my success was assured after the primary: I campaigned California for Hughes," he was simply heaping insult on the injury that he had already done to the Republican party in the State and nation.

Out of his own mouth Senator Johnson convicted of treachery to Mr. Hughes, and to the Republican voters of the State who gave him an endorsement for Senator, with the explicit understanding that he would take an active part in the campaign to beat Wilson in California.

Before August 25, Johnson's professions of loyalty to Republican leaders, both in the East and in California, were profuse. Once he had received the Republican nomination, he seems to have forgotten that Woodrow Wilson or the Democratic party existed. He stamped the State for eight weeks, not for Hughes, but for Johnson. His speeches are of public record. They show that during that entire speaking campaign he had not one word of fault to find with the Democratic administration, not one word of censure for the policies of President Wilson, whom he had castigated so bitterly in the campaign of 1912. But that was not all.

It was not by accident that he made more than 100 public addresses without mentioning Wilson or the Democratic party. He was urged by loyal Republicans, both by letter and in person, to say something to weaken the hold that Wilson was getting on the labor union vote of the State. He was urged to repeat the same quotations from Wilson's letters and utterances against organized labor that he used in 1912. He always gave the hope that he was going to "open up on Wilson and the Democrats," but he never did so.

During that campaign Senator Johnson spoke in halls in which "Johnson and Wilson" banners were displayed, and uttered no word of protest. He rode in parades where "Johnson and Wilson" banners floated and uttered not one word of objection. He was notified by delegations from labor unions that their organizations had endorsed "Johnson and Wilson," and he thanked them as enthusiastically as though it had been "Johnson and Hughes."

"GRAND JOHNSON RALLY." In the closing meeting of his campaign, a mass meeting held in Dreamland Rink in San Francisco, there were more Wilson men than Hughes men on the platform, more Wilson buttons than Hughes buttons. The meeting was paid for by the Republican State and National Committee; yet in the paid advertisements of the meeting that appeared in the local papers the word "Republican" did not appear. The advertisements sent to the papers originally were announcements of a "Grand Republican rally." But on orders from the Johnson Senatorial committee they were changed to "Grand Johnson rally."

In that address Johnson referred neither by name nor by implication to President Wilson or the Democratic party. He stood to the end to the Johnson-Wilson combination, which carried the endorsement of the State Federation of Labor and of the labor unions. When his managers were asked by State employees whether that combination was objectionable to Johnson they were assured that it was not.

CURRY'S LOYAL STAND. When Congressman Charles Curry was in Sacramento a short time before election day a delegation informed him that they were going to vote for Curry and Wilson. Mr. Curry at once replied: "Give the vote that you intend for me to Hughes. I would much prefer that you voted for my opponent, provided you vote for Hughes for Presidency; for it is of vastly greater importance to the country that Hughes be elected President than that I be re-elected to Congress from this district."

That was true loyalty. But it is not on record that Johnson ever objected to the Johnson-Wilson combination.

How different was the record of Johnson's campaign of the East in 1912. At that time he was campaigning for Roosevelt and Johnson. The Associated Press report of Johnson's speech at Salamanca, N. Y., on November 1, 1912, contains the following: "The greater part of Gov. Johnson's speech was directed at Gov. Wilson and his stand on the tariff, the trusts and social and individual legislation."

IN THE 1912 CAMPAIGN. In every speech which Johnson delivered in the East during that campaign he denounced Wilson, then Governor of New Jersey, because he was condemning the trusts in his campaign speeches, but had done nothing as Governor of New Jersey, the home of the trusts, to bring any of them to the bar of justice.

Roosevelt and Beveridge were just as severe on Wilson in 1916 as in 1912; but Johnson held to the unwritten law of the Johnson-Wilson combination by refusing to say one word, either against Wilson or his administration. He even ignored the fact that Californians were being murdered and plundered in Mexico by reason of Wilson's supine Mexican policy.

Johnson denounced Taft's policy of "watchful waiting" in relation to Mexico in 1912, but made no mention of that fact that Wilson was continuing that policy in 1916.

In 1912 Johnson said: "You must take your choice between a man of action and a man who has 'frod so softly that, naturally, he has of fended no one. One is a man of action; the other is a man of words." But in 1916 he had forgotten that either Wilson or the Democratic party existed.

CLAIM IS AN INSULT. To set up the claim, after the election was over and Hughes beaten in California, that he had campaigned for two months for Hughes—with that record of perfidy and silence is an insult to the Republicans of the State and of the nation.

Senator Johnson will have to explain that record away before he

cent. of what are known as the small income taxpayers, those having incomes of \$5000 and less for 1919, are paying in full instead of taking advantage of the quarterly payment arrangement, making such payments due in March, June, September and December, 1920. This, in the judgment of the collector indicates a splendid spirit on the part of the taxpayers and an ease in the local money market that makes such general lump sum payments possible.

I.O.B.B. PLANS DRIVE.

Grand Lodge Convention Follows Membership Campaign.

To add at least 150 new members to the order, a campaign will be conducted from February 2 to 6 by the Independent Order of B'nai B'rith. Initiation of the new members will take place on the night of February 16 as one of the features of the convention of the Grand Lodge of the western division, I.O.B.B., which will meet here between February 15 and 18.

The captains of the drive, named yesterday by Lester William Roth, chairman of the committee, are: Henry D. Crane, A. L. Lovitt, Charles W. Leonard, M. J. Finkenstein, J. R. Ordway, A. B. M. Friedman, H. H. Harris, Lester J. Reich, Samuel Roth and Benjamin Lewis. The officers of the order, which stands for brotherly love and harmony, and many principles of Judaism, are: Marco R. Newmark, president; Louis M. Cole, monitor; Rabbi Edgar Magnin, vice-president; and Lester Roth, assistant monitor.

OLD-TIME COLD CURE—DRINK TEA!

Get a small package of Hamburg Brest Tea at any pharmacy. Take a tablespoonful of this Hamburg tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoonful at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.—(Advertisement.)

PE-RU-NA

Weights More Than Ever

Endurant, Iowa. "While recovering from the influenza, I was so weak I could not gain any strength for two months. The latter part of the winter, I bought six bottles of Pe-ru-na and began taking it. My weight increased to 175 pounds, the most I ever weighed. My usual winter weight is 155. If you can use this letter for any good, you are perfectly welcome."

For the relief of coughs, colds and all diseases due to catarrh and catarrhal conditions, Pe-ru-na has held the confidence of thousands during the last fifty years. As a health restorer and body builder after protracted sickness, the grip or influenza, there is nothing better. Pe-ru-na is a dependable family medicine for everyday ills.

"A Disgrace to Greater Los Angeles"

What Are You Going to Do About It?

Are you going to allow the insidious influence of destructive
propaganda to disgrace our city and shackle the efforts of an
organization whose constructive work is constantly developing

Our Greatest Asset our Young Men and Boys

Every Citizen Is Called To Wipe Out This Disgrace

Progress in civilization depends upon the pres-
ent generation seeing to it that the best, instead of
the worst, of this generation make its contribution
to the next. The citizens of Los Angeles must see
to it that right now is the time to do their part in
setting the physical, mental and moral standards
of the next generation. Los Angeles men have
a responsibility for Los Angeles boys—for

"OUR YOUNG MEN AND BOYS ARE OUR GREATEST ASSET"

By their labor—they create wealth.

By their character—they determine
the city's morals.

By their standards—they determine
our citizenship.

By their progress—they determine
our future.

The Y. M. C. A. is managed by Los Angeles
business men, who make up the Board of Direc-
tors, but it does not belong to them.

It Is YOUR Y. M. C. A. Will You Do Your Part

To Make YOUR "Y" a Greater Los Angeles
Success?

Only \$750,000 Required

Less Than \$100,000 Sub- scribed---It's Time For Every Citizen to ACT

Surely it cannot be said that Los Angeles
lacks civic pride.

Surely it is not true Los Angeles is content to
sink to "Fourteenth Place" when by right of size
it stands as the seventh largest city in the United
States.

Surely our people do not want it to appear that
we are careless of the future—unwilling to lend
the fullest support to the great constructive work
being done to develop our GREATEST ASSET.

What future progress is made by Los Angeles
will depend largely upon what we make of our
Young Men and Boys today.

"The city that does not regard its Young Men
as its Greatest Asset is apt to find them its Largest
Liability."

What are YOU going to DO about it?

This Is a Local Campaign For Our Own Los Angeles Y. M. C. A. (Not a National Campaign)

It is conservatively estimated that at least
\$750,000 is urgently needed for effective ex-
tension of constructive work to cope with our
rapidly growing city—such as

NEW BUILDINGS at Hollywood and San
Pedro.

COMMUNITY WORK with thousands of boys
and young men at Boyle Heights, High-
land Park and other important sections
of our city.

AMERICANIZATION—a vital program to
develop citizenship with the foreign-born
element in Los Angeles.

DEBT** on Central Y. M. C. A. Building;
